# STATISTICAL REPORT

## of Seventh-day Adventist® Conferences, Missions, and Institutions Throughout the World for the Year Ending December 31, 2012 (including Year-End Membership Statistics for 2013)

### ABOUT THIS REPORT: THE ASR EVOLVES

**Changes in the Report.**—This is the 150th annual report on Seventh-day Adventist statistics and the 107th report printed as a standalone volume. The 149th *Report* (2013) was the first to use the year of publication in the title, rather than the year to which statistics apply, which had previously been used in the title. We realize that some have found this change confusing (and to them we offer our apologies), but we appreciate the many users of the *ASR* who have affirmed the change.

As we signaled in the 149th *Report* and the *Supplement* released last November, starting with this *Report*, each *ASR* will report statistics from two different years: membership statistics, including numbers of churches and companies, and accessions and losses, will be for the twelve months ending December 31 immediately before publication; organizational statistics on tithes and offerings, employees, and institutions will be for the preceding year. For example, this *ASR* publishes membership statistics from five months ago, and financial, institutional, and personnel statistics from 17 months ago. Statistics on church members and congregations are the most vital statistics for church leaders and administrators, and the most interesting for church members; moreover, online reporting systems mean they can now be collected and reported much more quickly than in the past. However, statistics on denominational finances, workers, and institutions are laborious to collect and report, and at present it is not possible to publish them within twelve months. Thus, for the moment the *ASR* will publish statistics for two different calendar years.

As noted in the prefatory notes to the 2013 *Report* and *Supplement*, this change in approach does not affect the reporting of financial, institutional, and personnel statistics: the 148th *Report—2010* (title and statistics for 2010, but published in January 2012) made available these statistics for 2010; the 149th *Report* (titled 2013, statistics for 2011, published in April 2013) printed these statistics for 2011; this *ASR* publishes them for 2012; and the continuity will be maintained hereafter. To ensure continuity of membership and congregational statistics, however, it was necessary to publish these statistics for 2012 in a supplement that filled the gap between the 149th and 150th *Reports* (2011 and 2013 membership statistics). Henceforth, continuity of these vital statistics will also be maintained.

A final note on the impact of these changes: because the Global Mission tables draw on membership, congregational, and personnel statistics, the data in those tables is not from the calendar year immediately preceding but from the year antecedent to that (in common with the financial, institutional, and personnel statistics).

**Church Growth.**—During 2013, a total of 1,091,222 people became Seventh-day Adventists by baptism and profession of faith; an average of 125 every hour across the whole year. This is the tenth year in succession that over one million people have been added to our Church. We are grateful to the Holy Spirit, who continues to convict men and women worldwide. We are also grateful to all the denominational employees—whether engaged in pastoral, evangelistic, educational, medical, or administrative work—whose work helps to build up the kingdom of God here on earth even as we look forward to the coming heavenly kingdom.

**Membership Audits.**—The global program of membership audits continues. Readers looking at growth rates and noting a decline in 2013 should bear in mind that many of those removed from membership in 2013, as part of the audit process, had left the church years ago. Audit is a vital aid to improving pastoral care and strategic planning. It is also a way to ensure we have the highest standards of accuracy and truthfulness in our denominational statistics.

**The 10/40 Window.**—In this *ASR* we add a third Global Mission Table, focused on the countries of the “10/40 Window”—a region the Church has prioritized since 1991. This table gives summative data for the Adventist presence in the 10/40 Window and contrasts it to the summative vital statistics for the rest of the world; it will enable denominational leaders to check progress in this least reached area of the world. As an aid to understanding, we include in this *ASR* a color map, showing the countries of the 10/40 Window along with the borders of the General Conference’s world divisions.

A Seventh-day Adventist statistical archive consisting of past statistical reports, tables, and documents is available online at: [www.adventiststatistics.org](http://www.adventiststatistics.org).

GLOBAL MISSION

The Church's Presence, Outreach, and Mission

**Challenge of Global Mission.**—The Global Mission document voted at the 1989 Annual Council and endorsed at the 1990 General Conference Session seeks to create an awareness, in concrete measurable terms, of what the gospel commission means to the church today.

**Monitoring Global Advance.**—Table 1 below lists major unentered regions of the world according to conferences or missions rather than by countries. It is based on a challenge of Global Mission: to place a church among each one million of earth's population. To locate regions where the ratio of churches to population is less than 1:1,000,000, we have used the 2013 *Seventh-day Adventist Yearbook* to find those conferences or missions with low church-to-population ratios. For example, in the West Congo Union Mission of the East-Central Africa Division the Lower Congo Field has a population of 6.0 million and 4 churches. Therefore, on average, each church serves a population of 1.5 million people. Progress is indicated in the fact that in 1997, when this field was organized, each church served an average of 3.4 million people.

This view of the global challenge shows in which conferences or missions the great challenges lie in relation to the Adventist "presence." (For a definition of "presence" see "Definitions" in the next column.)

A column is provided to show the "Population Estimate (Millions) Per Church 1990 or When Organized" for comparison. The basis for these entries is the 1991 *Seventh-day Adventist Yearbook* or the *Yearbook* representing the year of the field's organization after 1990. In some cases the 2012 ratio is larger than the earlier ratio. This may be due to a population that is growing more rapidly than the church or to official revisions in population estimates, rather than to a loss of churches. In some cases the fields that existed in 1990 no longer exist by the same name or territory so a direct comparison is impossible. In other cases growth of churches has lowered the ratio below 1.0. These are being eliminated year by year as church growth occurs.

The number of churches is taken from this edition of the *Annual Statistical Report*; population statistics are for mid-2012 and are provided by the Population Reference Bureau of Washington, DC.

Some countries with a population of one million or more yet with little or no Seventh-day Adventist organizational structure are shown in parentheses.

Table 2 lists all countries and areas of the world and shows church-planting activity and general growth, including the number of ordained ministers, churches, companies, and members, for each country.

Although isolated Sabbath keepers or Seventh-day Adventists from other countries are known to reside in some countries where there is no organized church, the data here corresponds to official reports from the divisions.

The "Ordained Ministers" column excludes those who serve in administrative positions at the union and division levels.

**Definitions.**—Officially, what is a "country or area of the world"? For the purposes of this report, it is a political or geographical entity recognized by the United Nations. Because the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in the list or the absence of others. The countries and areas shown in the accompanying Global Mission tables are as listed in the United Nations Statistics Division, Standard Country and Area Codes Classifications (M49) list, with changes through December 2012. (Exception: Taiwan is not listed in the United Nations publication.) Population figures are supplied by the Population Reference Bureau of Washington, DC.

"Presence" means the existence within the territory of an organized church.

"Established work" exists in a country or area of the world when one or more of the following criteria have been met: (1) when an organized church meets regularly; (2) when a mission station, healthcare facility, or school is functioning regularly; or (3) when a regular full-time denominational employee is based in the country or area carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company, or a language school. Seventh-day Adventist work is *not* considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbath keepers, employees traveling through, or temporary service by regular employees, student missionaries, or other volunteer employees. Countries or areas where the church does not have established work are listed in a half-page table on page 76.

The "number of countries and areas of the world" as listed by the United Nations as of 13 February 2013 is 240. Our count is 237 because we do not count Hong Kong SAR or Macao SAR (or Taiwan) since they are considered part of China (except for the purposes of GM Table 3, where all three are counted); and we do not include Sark as it is part of the Bailiwick of Guernsey.

**Symbols Used in Table 2:**

- + Improvement, but percentage calculation is impossible because the beginning figure is zero.
- Decrease in growth.
- ( ) Negative number.

## GLOBAL MISSION

## (GM) Table 3

## 10/40 Window

Matthew 24:14: "And this gospel of the kingdom will be preached in the whole world as a testimony to all nations, and then the end will come." NIV

The 10/40 Window describes a rectangular-shaped region of the world map in the eastern hemisphere between the 10 and 40 northern lines of latitude, which includes North Africa, the Middle East, and Asia, where more than 60% of the world's population live. This region is home to some of the largest people groups who do not have access to the Gospel message. The majority of the world's least evangelized countries and a great number of the poor are within the 10/40 Window. It contains three of the world's dominant religions: Islam, Hinduism, and Buddhism, plus the non-religious. Much of this region also has Biblical and historical significance.
